

2019 May Basket Campaign

Center for Women in Transition is asking for your support in helping to provide "May Baskets". It has become a tradition to present a laundry basket filled with personal care and household cleaning products to all of our clients during the month of May. These products are not covered by public assistance, making them luxuries for many of the families we serve. Please help us support these families by donating a laundry basket filled with the items listed below.

We welcome all donations to this campaign through the month of May at Center for Women in Transition in Holland.
